# Navigating the Future: Multi-Modal Ecosystem in India

New Delhi

March 6, 2025

# Introduction

Indian Chamber of Commerce is pleased to invite you to the conference titled "Navigating the Future: Multi-Modal Ecosystem in India." This significant event aims to address the evolving landscape of transportation and logistics across India, focusing on the necessity for a comprehensive multi-modal transportation network. The conference will take place on 6th March 2024 in Kolkata, bringing together key stakeholders, including policymakers, industry leaders, and technology innovators.

# Background

The PM Gati Shakti policy aims to establish an integrated multi-modal transportation network throughout India by harmonizing existing infrastructure projects across various modes such as railways, roads, waterways, and airports. This initiative seeks to facilitate seamless movement of goods and people through coordinated planning and implementation among different ministries, with an emphasis on connecting key economic zones across the country.

# Conference Objectives

To promote awareness and understanding of the PM Gati Shakti National Master Plan and its implications for India.

To explore logistics policies as catalysts for growth nationwide.

To facilitate dialogue and collaboration among key stakeholders in the logistics sector.

To identify key challenges and opportunities in developing a multi-modal logistics ecosystem across India.

To showcase best practices and innovative solutions in logistics and supply chain management.

To attract investment in logistics infrastructure throughout India.

To examine the development of Multi-Modal Logistics Parks (MMLPs) and their significance.

# Key Focus Areas

-  Cross-Border Logistics and Regional Connectivity
-  Cross-Border Logistics and Regional Connectivity
-  Enhancing Rail-Road Coordination for Freight Movement
-  Improving Last-Mile Connectivity and Rural Logistics
-  Technology and Innovation in Logistics
-  Financing and Investment in Logistics Infrastructure
-  Digitalization and Data Analytics for Enhanced Connectivity
-  Smart Warehousing and Automation

# Target Audience

**Government officials from central and state governments (Ministry of Ports, Shipping and Waterways, Ministry of Road Transport and Highways, Ministry of Railways, etc.)**

**Industry leaders from logistics companies, shipping lines, freight forwarders, warehousing companies, and other related sectors.**

**Infrastructure developers and investors.**

**Academics and researchers specializing in logistics and supply chain management.**

**Representatives from organizations and trade bodies.**

# Expected Outcomes

- 
-  Increased awareness of the opportunities and challenges in developing a multi-modal logistics ecosystem across India.
  -  Enhanced collaboration and networking among key stakeholders in the logistics sector.
  -  Identification of concrete action steps for improving logistics infrastructure and services nationwide.
  -  Attraction of investment in the logistics sector of India.
  -  Contribution to the overall economic development of the country.
